

Getting to Know You

Materials:

Classbook Bulletin Board (CTP 1486)

Colored pencils

crayons

Directions:

1. Take a picture of each student on the first day of school or have students draw self-portraits.
2. Make copies of the All About... reproducible found in the activity guide for each child.
3. Encourage students to complete the profiles and then share the information with the class.
4. Affix the student photos or drawings on the insert and display them.

Tip:

Students excel in class when they are comfortable and relaxed. Dedicating time to getting to know each other on the first day of class will help create a positive classroom environment.
