

Bugs in Your Backyard

Look in your backyard.

You can see many bugs.

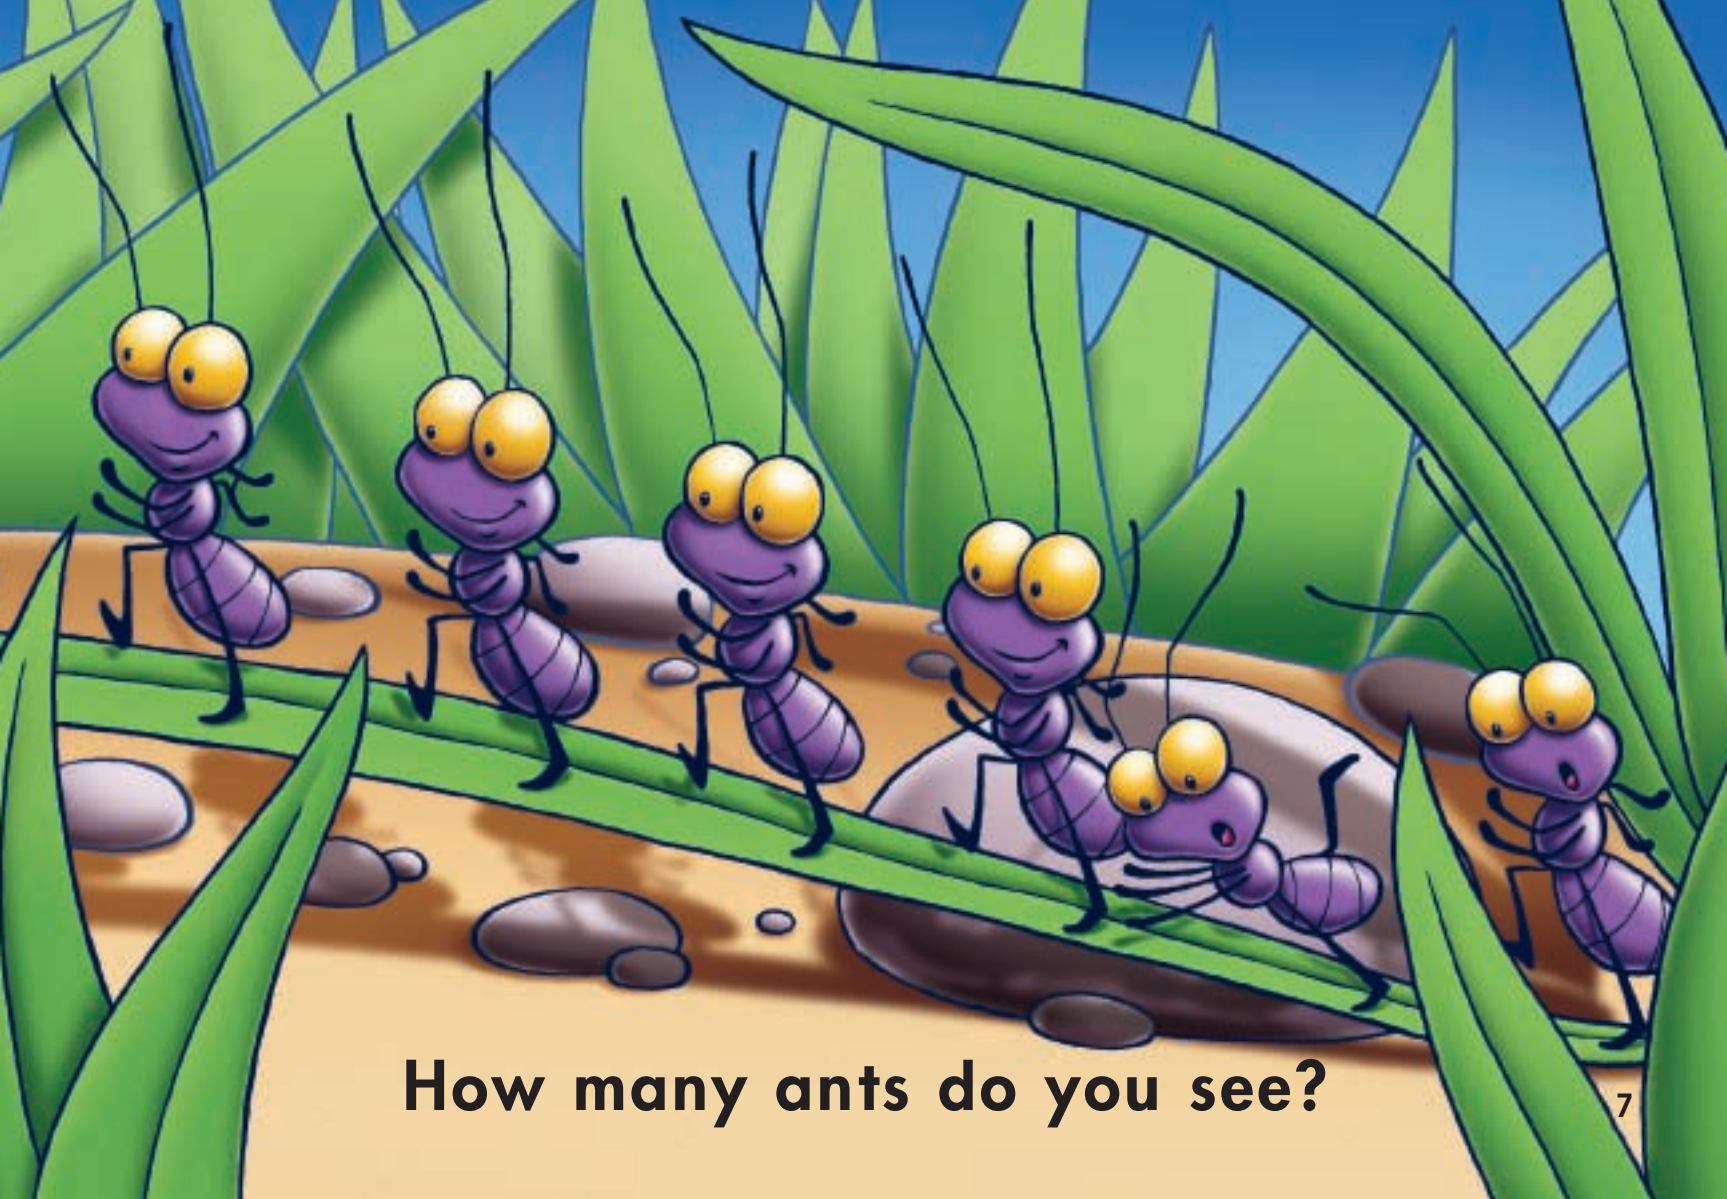

Look up in the tree.

How many bees do you see?

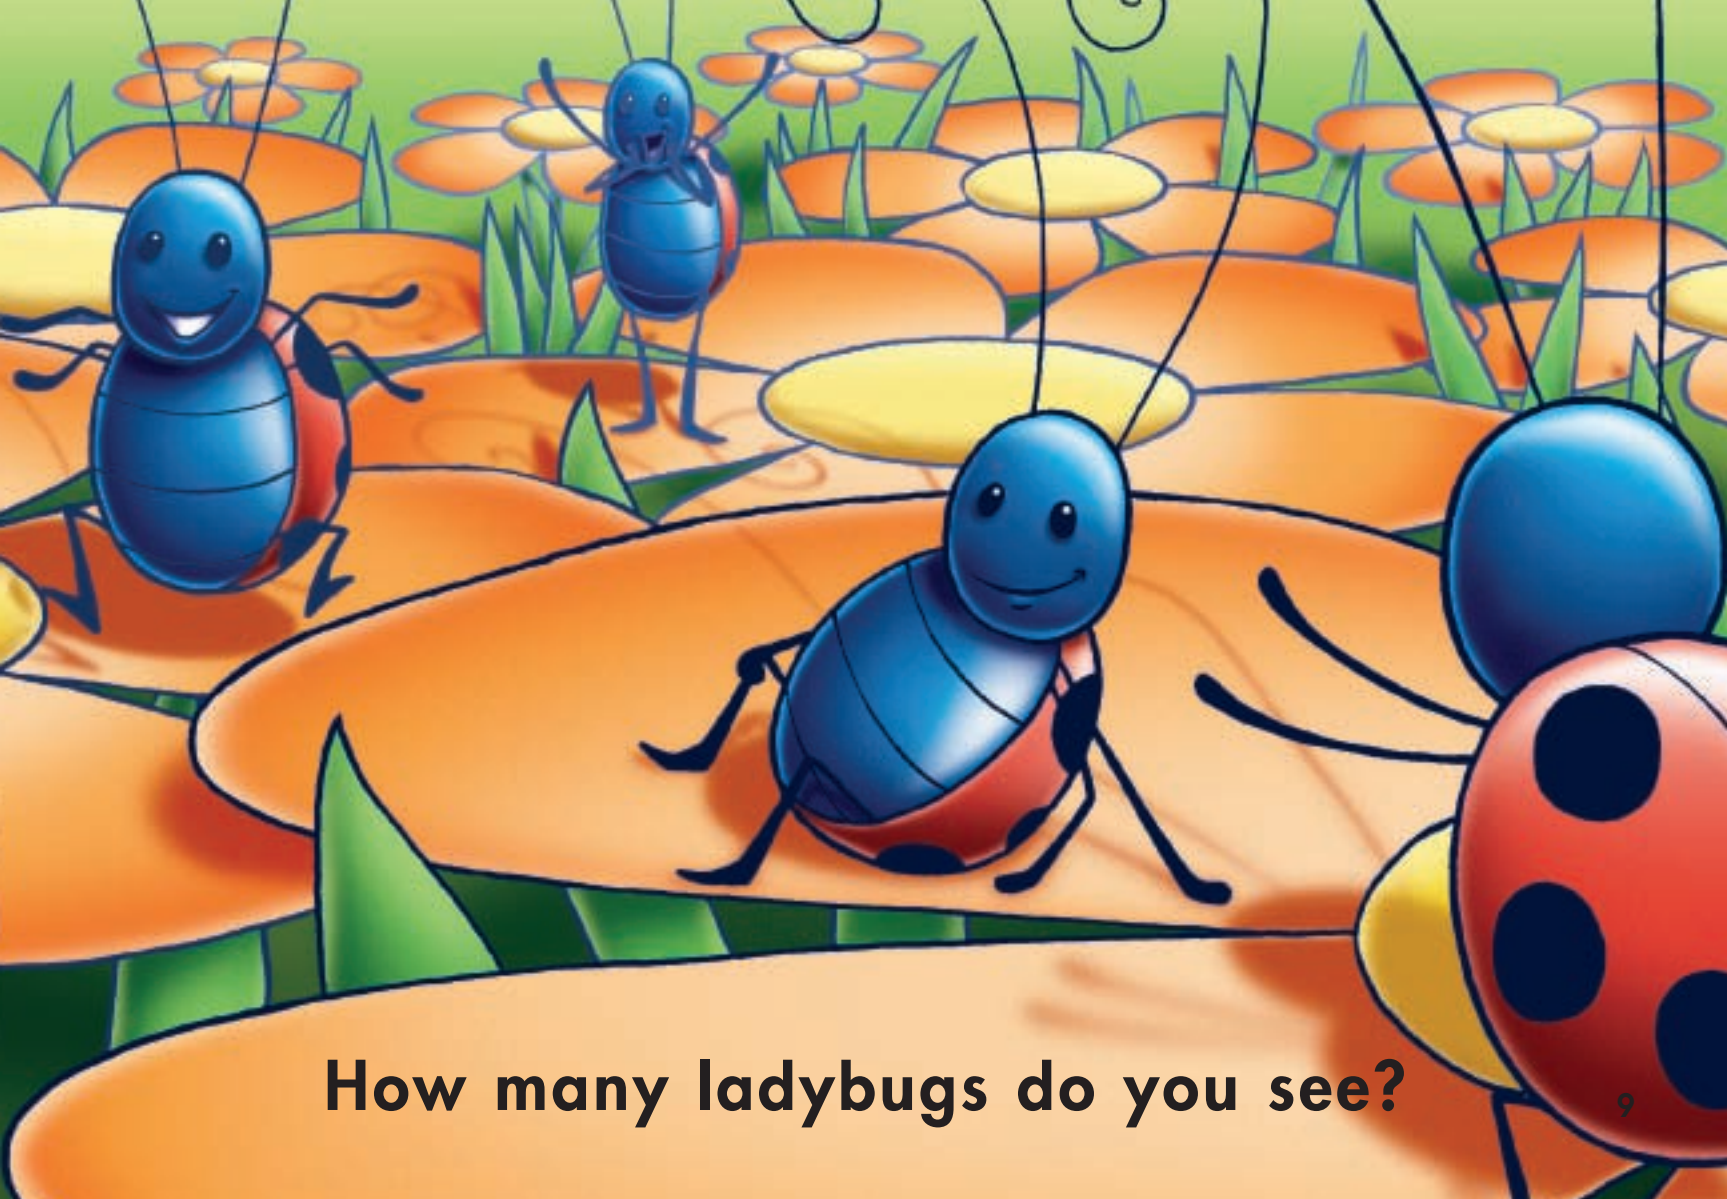

Look down in the grass.

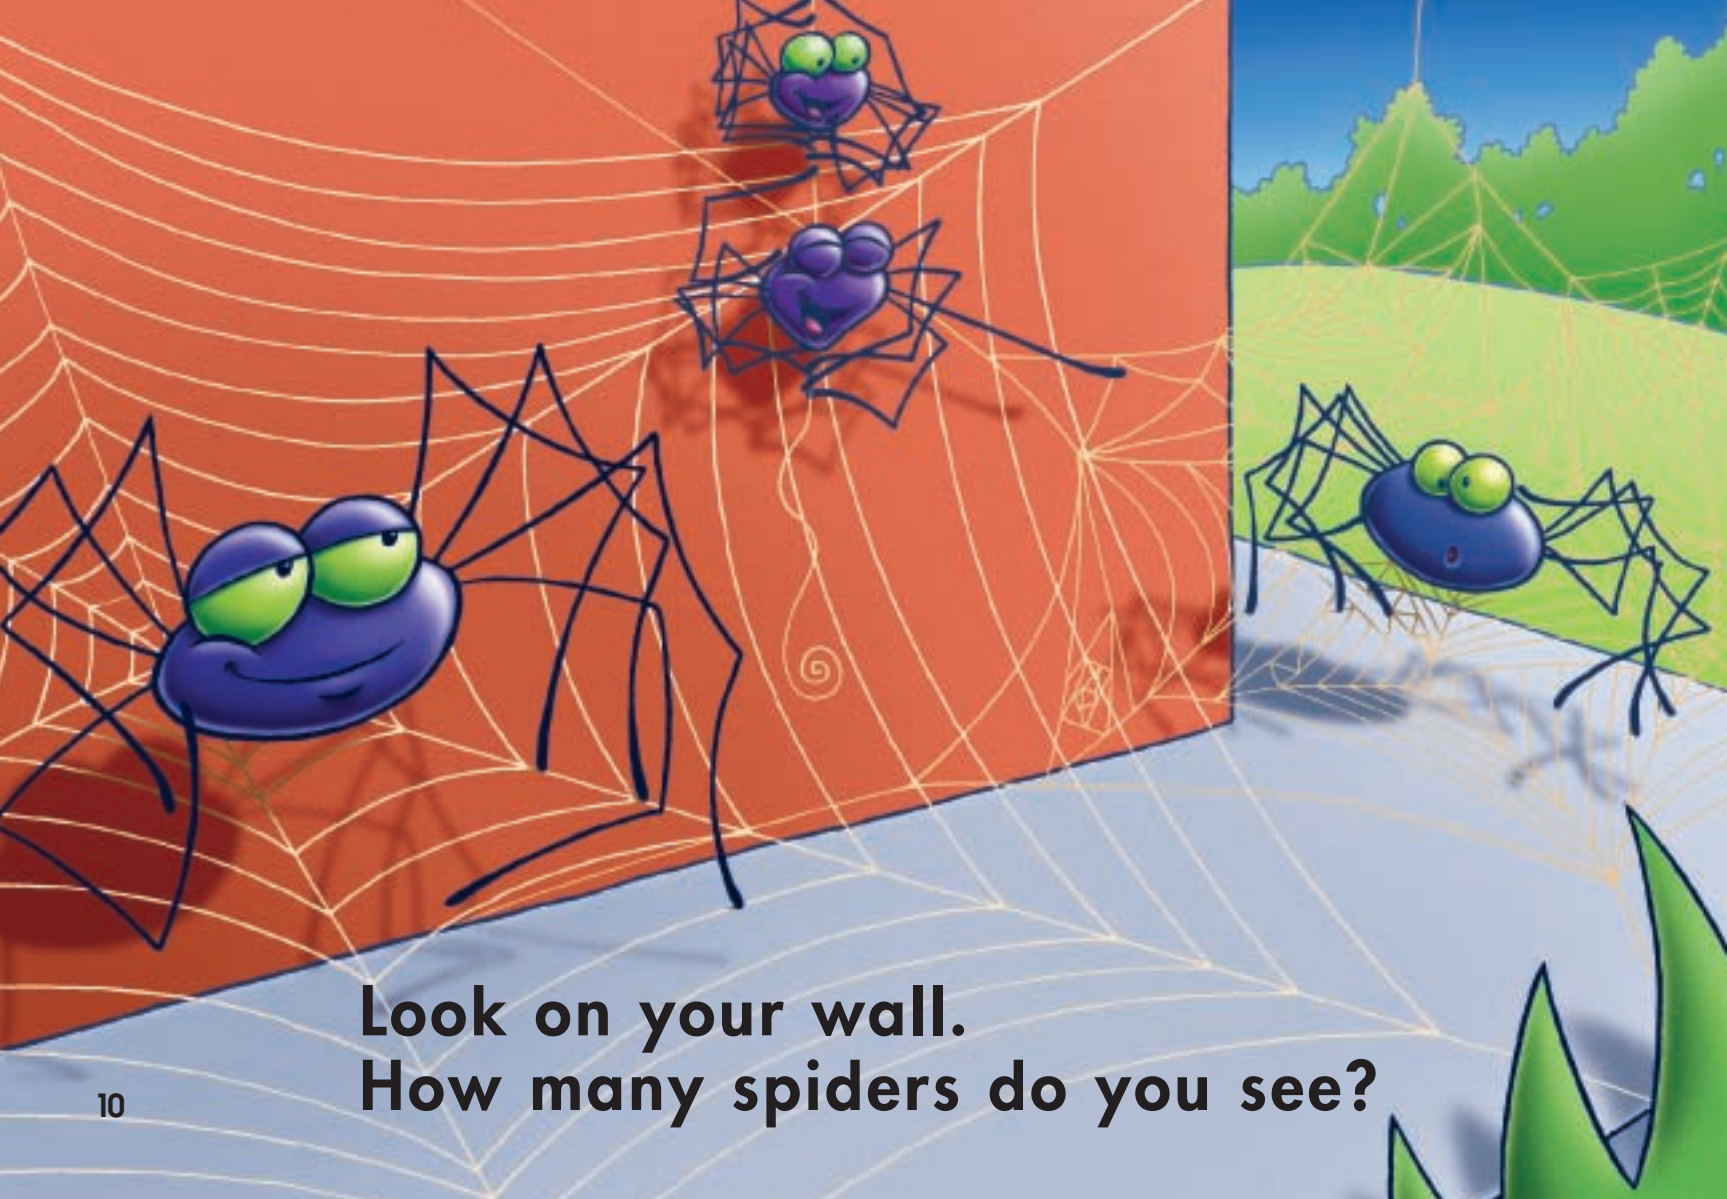

How many ants do you see?

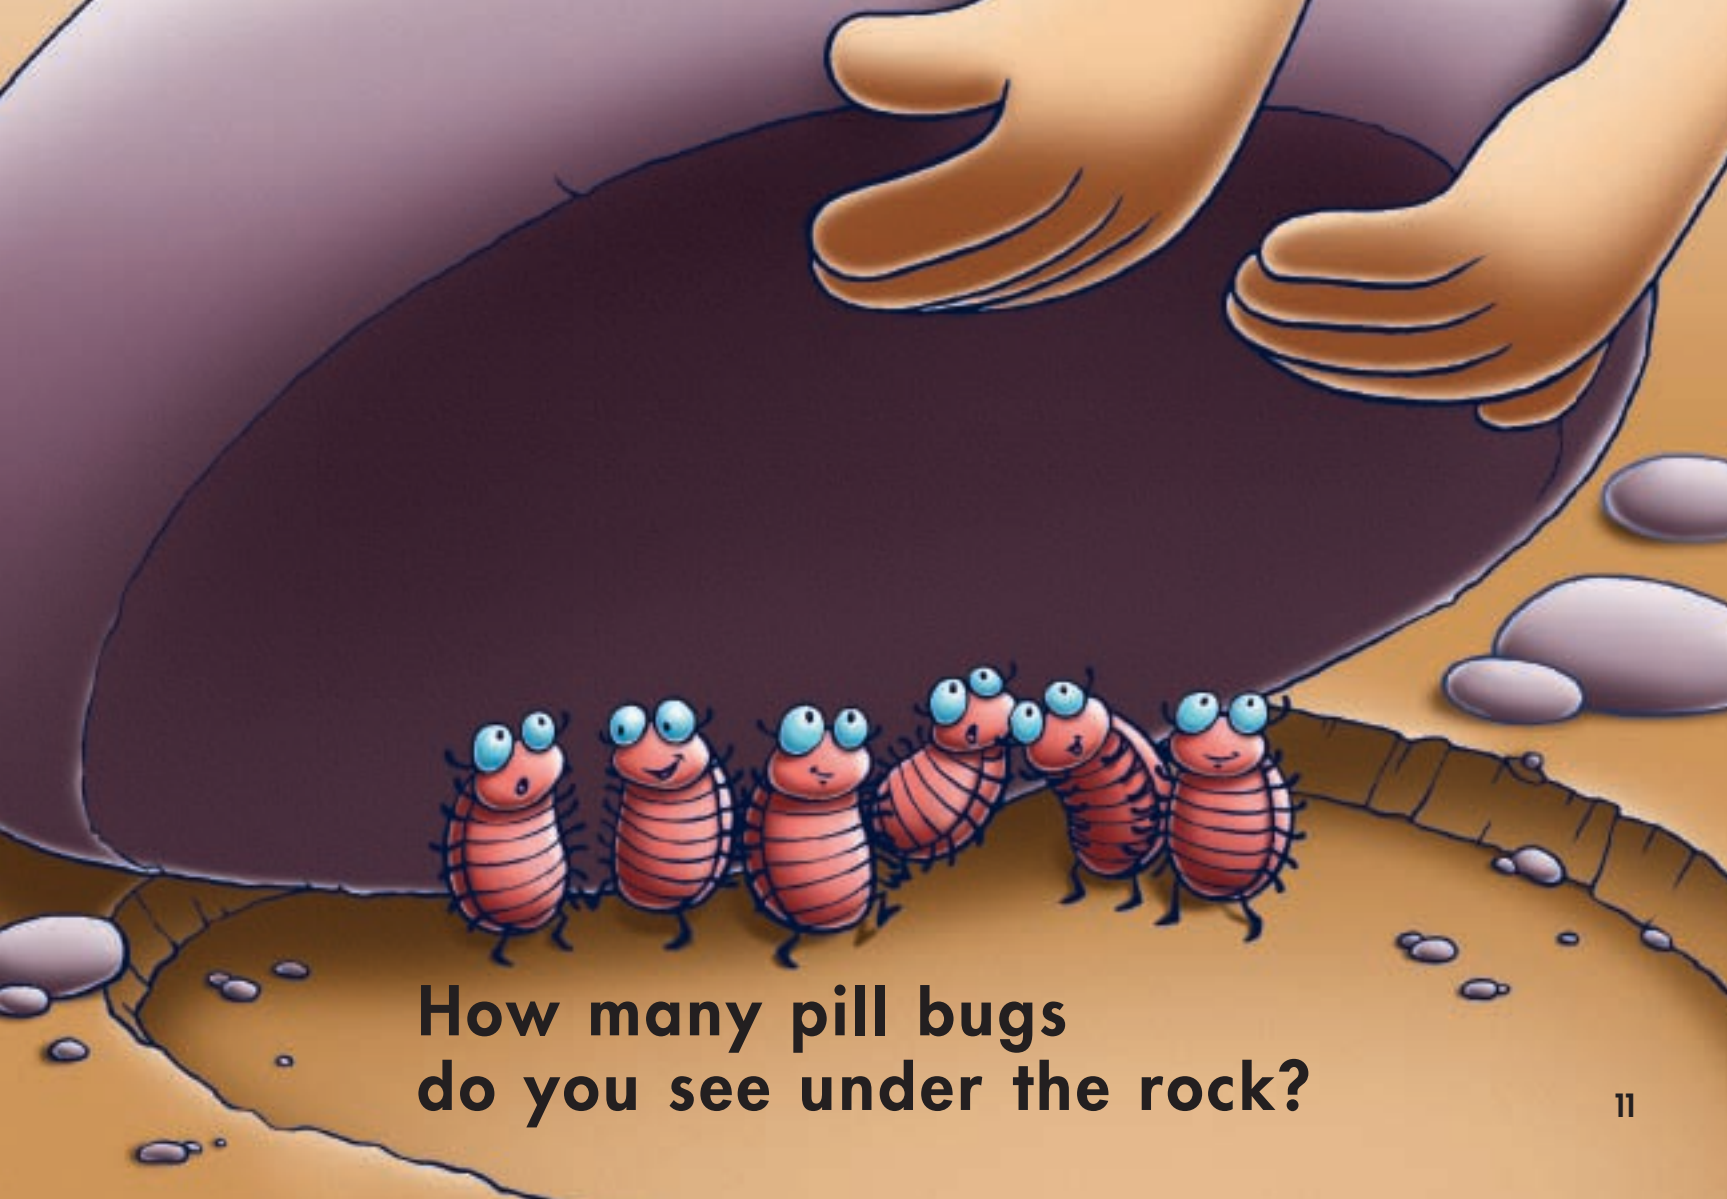

Look on your flowers.

How many ladybugs do you see?

**Look on your wall.
How many spiders do you see?**

**How many pill bugs
do you see under the rock?**

**How many grasshoppers
do you see on the log?**

**How many caterpillars
do you see on the leaf?**

Look in your backyard.

How many bugs did you see?

**I see many bugs in your backyard
and one big bug on you!**
