

IDEA—Individuals with Disabilities Education Act

Goal: The Individuals with Disabilities Education Act requires education institutions, in collaboration with parents (and older students), to tailor an individualized education program (IEP) for each student with a disability that meets the unique needs of that student.

Who/What For:

In addition, up to 15% of funds may be used to develop and implement coordinated, early intervening services for students in grades K–12 who have not been identified as needing special education services but who are in need of additional academic support.

Use of Funds

Provides accommodations to students
Teacher training on how to select and use interventions
Early intervention programs for students in need of additional academic support, but are not yet in special education
Remedial programs
Programs that accelerate reading
Test preparation resources
Analysis of assessment data and prescribing instruction

*Customized professional development is encouraged to support teachers through differentiating instruction to meet the individual needs of students.

Key Points to Remember!

- Many times Title I funds are combined with IDEA.
- State level funds may be allocated to schools identified for improvement, for special education students, where districts are required to provide supplemental educational services
- Training and support for teachers are needed to meet new IDEA EIS provision
